

# The Evening Bulletin.

With which is incorporated the "Independent."

DANIEL LOGAN, Editor.

MONDAY, JUNE 17, 1895.

## OBSERVATIONS.

In the House has to run against the excessive wind thus far prevailing in it, the Senate will leave it away behind the distance post and chew peanuts in the grand stand till the wind strikes the House in the back.

No newspaper has yet congratulated Professor Heinrich Berger, the popular bandmaster, upon being a grandfather, which he became on the 11th, the great Kamehameha holiday. The event has not made the genial veteran a bit older.

It is very gratifying to see so much fruit of tourist visitation from the frequent calls of the China steamers as the large number of passengers who stayed over from the S. S. Coptic. Let us keep hammering away at the attractions of the islands for tourists and their beneficial climate for invalids. The entertainment of strangers may not always bring angels, but it will mortals with gold coin and they will leave behind in exchange for pol, scenery and band music.

## ABOUT OURSELVES.

As a change has taken place in the status of the EVENING BULLETIN, by the incorporation into it of the Independent, a morning paper lately started, a few words from the new combination may be appropriate. To correct an erroneous impression that has got abroad, it should be stated that the Independent, excepting as a morning newspaper, does not die. Its plant and resources are merged with those of the BULLETIN, and its owners have associated with the owner of the BULLETIN to conduct a newspaper and general printing and publishing business. They are prepared to make contracts for the printing and publishing of periodicals, as well as to do job printing.

There will be no change in the policy of the BULLETIN, nor in that announced by the Independent in its initial issue. The combined paper will be entirely independent. That is, it will freely criticize public servants, uninfluenced by fear of resentment or hope of patronage. At the same time it will not be the organ of any party, but will bestow praise where it may be considered as deserved, without regard to friendships or irreconcilables.

As a newspaper the BULLETIN will aim to be thorough. An able and experienced reporter has been engaged in the person of Mr. George Manson, whose work will be supplemented in special lines by the editor, whose more than a score of years of constant editorial and reportorial experiences will be applied to the best of his ability. After a few days the important department of marine news will be in the hands of a reporter who has made a good record in that line in a local contemporary.

Subscribers of the Independent will be supplied on and after this day with the EVENING BULLETIN, and all engagements of either paper as to advertising as well as subscription, will be faithfully carried out. The subscription

price after June 30 will be seventy-five cents, the same as that of other daily papers of Honolulu. It is intended to make the paper worth the additional cost. The paper is to be printed by electric power at the printing house, Ke-kuanaoa street near Allen street, Esplanade. The business office will remain at 609 King street, where Mr. Finney, business manager, can be seen or called up by telephone No. 256. The editorial and printing house number is 395.

Aloha nui.

## LOCAL & GENERAL NEWS.

Plastering is well advanced on the walls of the Y. M. C. A. annex.

The latest war news will be found in two places in this paper.

Louis Toussaint is erecting a spacious cottage on the Waikiki road.

There are no privileged persons allowed on the floor of the Senate under the rules presented today.

The glittering prizes for Saturday's sports attract much attention in Jacobsen & Pfeiffer's store window.

Mr. John Phillips has the sympathy of the whole community in the loss of his wife, who died last night after a long and painful illness.

Captain Fehlbahr appeared in the court officer's box, at Supreme Court term today, after a long absence from illness. The captain is the oldest officer in the police force.

The meeting of the teachers' committee of the Board of Education was put off till tomorrow, owing to the late hour when the Inspector General returned from Maui.

Mrs. Mary E. Foster treated the Theosophical Society to a railway excursion to her Ewa residence, together with a feast at the place, on Saturday last. Each member was allowed to invite a friend, and a first-class passenger car was filled with the party.

L. D. Timmons, lately reporter of the Star, has opened a clothing hat and furnishing store in the Waring block. He was brought up to the business in youth. The BULLETIN wishes him success.

## Frogs and Bugs.

Commissioner Joseph Marsden received a colony of frogs numbering about fifty from Prof. Koehle in Japan by the Coptic. They are big chaps with flutelike notes in their croaking. Col. J. H. Boyd took a lot of them out to Maunaloa this afternoon. Some will go to Waianae and some to Nuanu valley. Mr. Marsden also received a lot of different species of ladybirds from the same source to make war on insect pests.

# Timely Copies The New Process!

June 13, 1895.

It cannot be denied that the roads in Honolulu and suburbs are kept in a very fair and good condition. The road supervisor is devoting all his time and as much money as he can get in keeping the roads in good order and the driving and riding public appreciates his efforts. Nowadays, we do not drive in the old-fashioned brakes that used to shake the insides out of the driver. We do not either patronize old stiff-legged horses the motions of which were mild, only in comparison with riding on a rail out of a western town. Civilization has advanced and we go right along with it. Honolulu can boast of as fine turnouts as any big cities in the United States. The horses used are of superior breed, and every stranger admires the fine stock seen in our streets and on the race track. But it is not given to everybody to possess horse and carriage. It takes money to get them and to keep them, and for that reason we are going to meet the demands of those to whom phaetons and thoroughbreds are a grade too high. Buy a Monarch and the roads of Honolulu will be equal pleasure to the rider of that famous wheel as they are to the swell horseman and driver. The Monarch bicycle is among the high grade wheels. It is now the favorite in the United States and the Monarch Cycle Manufacturing Company is simply unable to attend to the orders which are crowding in, so that it has to enlarge its factories greatly to meet the demand. We have succeeded in securing an invoice of eleven which will arrive here during the next week and we can offer them at a very reasonable figure. The Monarch frame is made of the best quality of spirally drawn Mannesmann Steel Tubing and it is built for appearance as well as for speed. The Monarch frame is very rigid, very strong, very light, very graceful and very comfortable. All Monarch bearings are fitted with the Binns Patent Ball Holder and Dust Protector, which makes it possible to remove the cones of all lateral bearings without disturbing the balls.

The narrow tread on a bicycle is the latest fad. The Monarch claims that there is a limit to all things and the Monarch tread will be 5 3-4 inches, which is the narrowest claim consistent with the safety of the rider.

A Kingfisher bicycle lamp will perhaps be suitable for Waikiki, while a Demon lamp seems to indicate meeting with the mounted police.

The Monarch racers for ladies and gentlemen will commend themselves to everybody who enjoys a spin. We will at some future day devote more space to fully describe the superb bicycle. As soon as our invoice arrives we will invite you to inspect the wheel, if they are not all ordered beforehand.

## The Hawaiian Hardware Co. Ltd.

Opposite Spreckels' Block, 407 FORT STREET.

If you want a stove that will cook well and economically get a

## New Process Gasoline

Free from Danger of Explosion!

Free from Unpleasant Odors!

In using one of these stoves you have no long waits for the food to cook. THREE MINUTES after water is drawn from the tap it is boiling, when one of these stoves are used.

The expense is trifling, as forty-five drops of gasoline a minute will give all the heat necessary.

Call at the Salesroom and see them in operation.
